

Thomas Theis, PhD

Assistant Professor of Chemistry, Physics and BME

ttheis@ncsu.edu 510-363-2368

lab page: <https://theislab.wordpress.ncsu.edu/>

NC STATE
UNIVERSITY

Education

- **Post-doc** *Chemistry, Physics, BME and Molecular Imaging* at Duke University **2012-2015**
 - Advisor: Warren S. Warren, James B. Duke Professor of Chemistry, Physics, Radiology, BME.
 - “Molecular spin systems to maintain long-lived hyperpolarization”
- **Ph.D.** *Physical Chemistry, NMR and MRI* at University of California, Berkeley **2007-2012**
 - Advisor: Alexander Pines, Glenn T. Seaborg Professor of Chemistry
 - Thesis title: “Advances in Zero-Field Nuclear Magnetic Resonance Spectroscopy”
- **Diplom (M.Sc.)** *Chemistry* at University of Göttingen, Germany **2006**
 - Advisor: Michael Buback, Professor of Technical and Macromolecular Chemistry
 - Thesis title: “Polymerization Kinetics Studied with NIR and ESR Spectroscopy”

Professional Experience

Assistant Professor at North Carolina State University, Department of Chemistry **2018-present**

- Development of Hyperpolarization Chemistry and Spin Physics for Next-Generation Biosensing.

Adjunct Assistant Professor at UNC & NCSU Joint Dept. of Biomedical Engineering **2019-present**

- Development of Hyperpolarized MRI Technology.

Adjunct Assistant Professor NC State Department of Physics **2020-present**

- Development of RASER for Precision Measurement, and Quantum Sensors for Nanoscale NMR.

Visiting Scientist at the Max-Planck Institute for Cybernetics, Tübingen **summer 2022**

- Development of SQUID detected hyperpolarized NMR & MRI.

Assistant Research Professor at Duke University **2016-2018**

- Lead of the NMR and MRI research team in the Center of Molecular and Biomolecular Imaging.
- Development of versatile hyperpolarized molecular markers and simple hyperpolarization technology.

Post-doctoral Associate at Duke University **2012-2015**

- Investigated long-lived singlet states in complex systems and implications for hyperpolarized MRI

Visiting Professor at RWTH Aachen University **2013**

- Investigated parahydrogen-hyperpolarized long-lived states as *Theodore-von-Kármán-Fellow*, upon invitation by Prof. B. Blümich and Prof. S. Appelt.

Graduate Student Researcher at UC Berkeley & Lawrence Berkeley National Laboratory **2007-2012**

- Developed “*zero-field NMR spectroscopy*”. Work performed in collaboration with Budker lab at UC Berkeley and the Kitching lab at the National Institute of Science and Technology (NIST).

European Graduate School Fellow at University of Göttingen & Max Planck Institute for Biophysical Chemistry **2006-2007**

- Studied polymerization kinetics with NIR and ESR spectroscopy (Buback lab).
- Examined energy transfer through molecular chains with femto-second lasers (Troe lab).

Education Abroad Scholar at UC Santa Cruz **2004-2005**

- Synthesized limonene based β -amino-alcohols for enantioselective catalysis (Singaram lab).
- Synthesized and characterized gold nanoparticles to study electron transfer chemistry. (Chen lab).

Professional Activities and Honorary Positions

- Director of Commercialization and Entrepreneurship programs of the Comparative Medicine Institute (CMI) **2022-present**
- NC State Department of Chemistry Committee Memberships: **2019-present**
 - Diversity, Equity & and Inclusion Committee
 - Safety Committee
 - Undergraduate Programs Committee
 - Admissions Committee
 - Search Committee for Department Chair
- External PhD committee member, University of Southampton, UK **2022**
- Guest Editor for ChemPhysChem, Special Edition on Parahydrogen Enhanced Resonance **2020**
- Co-Organizer of the Physical Chemistry Seminar Series **2020-present**
- Member, NC State Chemistry of Life Program (CLP) **2020-present**
- External PhD committee member, University of Sydney, Australia **2020**
- Chair and Lead Organizer of the annual Parahydrogen Enhanced Resonance Meeting (PERM) **2020/21**
- Start-up Founder and President of Vizma Life Sciences LLC **2019-present**
- Scientific Advisory Committee of the HYP2020 conference in Lyon, France **2019**
- Member, Sigma Xi, the Scientific Research Honour Society **2019-present**
- External PhD committee member, DTU (Danish Technical University), Denmark **2019**
- External PhD committee member, University of Southampton, UK **2019**
- External PhD committee member, RWTH Aachen University, Germany **2019**
- Chair, Hyperpolarization Methods & Equipment Study Group of the ISMRM **2018-2019**
- Vice Chair, Hyperpolarization Methods & Equipment Study Group of the ISMRM **2017-2018**
- Secretary, Hyperpolarization Methods & Equipment Study Group of the ISMRM **2016-2017**
- Member, International Society for Magnetic Resonance in Medicine (ISMRM) **2013-present**
- Member, American Association for the Advancement of Science (AAAS) **2013-present**
- Member, American Chemical Society (ACS) **2012-present**

Awards and Honors

- NIH ORIP SBIR R43 to NC State startup Vizma LS, with NC State sub, \$257,000 **2023**
“Non-invasive molecular imaging tool for rapid, longitudinal assessment of localized metabolic disruptions in animal research and care.”
- Friedrich Wilhelm Bessel Research Award, by the Humboldt Foundation, €45,000 **2022**
in recognition of outstanding accomplishments in research.
- DoE Award for “Quantum-Enabled Bioimaging and Sensing for Bioenergy”, PI, \$2,250,000 **2022**
- First Place *DAUGHERTY ENDOWMENT AWARD* · \$25,000 **2022**
- NC Tracs Pilot Grant, for NC State – UNC collaboration, \$50,000 **2022**
- Brain Initiative SBIR R43 to NC State startup Vizma LS, with NC State sub, \$887,000 **2022**
“Automated microfluidic hyperpolarization reactor for neurometabolic imaging”
- Goodnight Early Innovator Award, \$66,000 **2021**
- Ampere Prize for Young Investigators: *“Rising Stars in Magnetic Resonance”* **2020**
- NC IDEA Seed Grant for Hyperpolarization Lab startup, Vizma Life Sciences, \$50,000 **2020**
- Brain Initiative Exploratory R01: Proof of Concept Development of Early Stage Next Generation Human Brain Imaging: *“Molecular MRI of Brain Metabolism”*, PI, \$807,000 **2020**
- Internationalization Seed Grant, NC State - RWTH Aachen - University of Stuttgart, PI, \$5,000 **2020**

- Edward Mallinckrodt Junior Faculty Grant, PI, \$180,000 direct cost **2019**
“Affordable Molecular Imaging with Long-Lived Hyperpolarized Spin States to Under-stand, Diagnose and Treat Metabolic Disease
- North Carolina Biotechnology Center Translational Research Grant, PI, \$110,000 direct cost **2019**
“Democratization and Disruption of Biomedical Imaging with Simple Hyperpolarized Biotracers
- Ralph E. Powe Junior Faculty Enhancement Award, PI, \$10,000 direct **2019**
“Mapping In Vivo Metabolism with Long-lived Hyperpolarized Quantum States”
- NIH-R21-Trailblazer Award, PI, \$625,000 **2017**
“Molecular imaging of in vivo metabolism with a hyperpolarized vitamin shot”
- NSF-CHE Grant as co-PI (Professor Warren Warren, PI), \$650,000 total cost **2017**
“Improving, Understanding, Utility and Generality of Hyperpolarized, Long- lived Spin States in MR”
- Duke Arts & Sciences Collaborative Research Grant with MIT and Harvard, PI, \$5,000 **2017**
“Mapping In Vivo Metabolism with Long-lived Hyperpolarized Quantum States”
- Duke Arts & Sciences Collaborative Research Grant with MGH and Harvard, PI, \$5,000 **2016**
“Biomolecular Imaging for Everyone”
- Top Story in *NSF Science 360 News* & Research Highlight in the *Boston Globe* for **2016**
“New class of molecular ‘lightbulbs’ illuminate MRI” (published in *Science Advances*)
- Magnetic Resonance in Chemistry - Young Scientist Award, for **2015**
“Enhancing SABRE with microTesla fields”
- ACS New Directions Grant as co-PI with Prof. Volker Blum : \$110,000 **2015**
“Dynamics of Molecules and Spins in Nuclear Magnetic Resonance for Imaging and Oil Borehole Applications”
- Duke Pratt School of Engineering Seed Grant, \$40,000 **2014**
“Dynamics of Coupled Spins in NMR for Biomolecular Imaging and Chemical Analysis”
- International travel funds from the German Science Foundation (DFG) **2014**
“Invivo tumor imaging with parahydrogen”
- *“Spotlight on Exceptional Research”* by the American Physical Society for the discovery of **2014**
“Long-Lived Heteronuclear Spin-Singlet States in Liquids at Zero Magnetic field”.
- *Theodore-von-Kármán-Fellowship* for visiting professors at the RWTH Aachen University. **2013**
- *“Spotlight on Exceptional Research”* by the APS for **2011**
“Magnetic Scans with a tiny Magnet”.
- Nature Research Highlights: *“NMR without the magnet”*: *Nature* (2011), 473, 126. **2011**
- Nature Physics News and Views: *“The art of signal enhancement”*: **2011**
Nat. Phys. (2011), 7, 522–523.
- European Graduate School Fellowship at the University of Göttingen: **2006**
“Microstructural control in free-radical polymerization”.

Languages

- Fluent in English, Spanish, and German; proficient in French.

Teaching Experience

Professor and Mentor at North Carolina State University **2018-present**

- Designed *Gamification of the Physical Chemistry Curriculum* at NC State.
- Designed and Taught *Spin Dynamics Summer Course* Summer 2021

- Designed and Taught *Introduction to Quantum Chemistry*. (CH 435) Spring 2021, Spring 23
- Designed and Taught *Thermodynamics and Kinetics*. (CH 433) Spring 2020, Fall 22
- Designed and Taught *Graduate Level Advanced Physical Chemistry*. (CH730) Fall 2018, 19, 20 & 21
- Mentored nine graduate students and two post-docs.

Research Professor and Mentor at Duke University **2012-2018**

- Contributed to the design of a magnetic resonance-based experiments for Phy 364L
- Produced video lectures teaching basics of NMR used in “flipped classroom” (of Chem 101DL).
- Contributed lectures to “*General Chemistry*” (Chem 210).
- Contributed lectures to “*Quantum Chemistry*” (Chem 541).
- Continuously mentored post-docs, graduate and undergraduate students.
- Mentored undergraduate students through the Duke Research Scholars Program.
- Held a graduate student seminar series at RWTH Aachen University: “*Nuclear magnetic resonance down to zero field*”.
- Participated in the Duke Chemistry Outreach Program: “*Sharing Chemistry with the Community*”.
- Guest-lectured in “*Writing in the Sciences*” at the University of North Carolina Chapel Hill (UNC).

Lecturer and Teaching Assistant at UC Berkeley **2007-2012**

- Co-Instructed 10 week *NMR Summer Courses in three consecutive years* for grad-students / post-docs.
- Taught upper division “*Analytical Chemistry lab*”.
- Taught lower division “*General Chemistry*” in two consecutive years.

Teaching Assistant and Elected Student Representative at University of Göttingen **2002-2006**

- Introduced and administered department wide course evaluations.
- Introduced and organized annual departmental soccer tournament.
- Taught introductory *Quantum Mechanics*.
- Taught *General Chemistry* for students in medical school.

Public Talks

[65]	Invited talk at the California Institute of Technology Chemical Physics Seminar	2022
[64]	Invited talk at the NC State University College of Veterinary Medicine, Raleigh	2022
[63]	Invited talk at the Biomedical Research Imaging Center (BRIC) at UNC, Chapel Hill	2022
[62]	Invited talk at the Hyperpolarized Methods & Equipment study section of the ISMRM	2022
[61]	Invited talk at the Department of Chemistry, New York University, NY	2022
[60]	Invited talk at ICONS5, International MR Conference on Methods and Applications	2022
[59]	Invited talk at the “Future of molecular Magnetic Resonance” Conference, Pasadena, CA	2022
[58]	Invited talk at the EUROMAR 2022 in Utrecht, the Netherlands	2022
[57]	Invited talk at the Karlsruhe Institute of Technology, Karlsruhe, Germany	2022
[56]	Invited talk at the Max-Planck Institute for Cybernetics Tübingen, Germany	2022
[55]	Invited Guest Lecture at the Helmholtz Institute in Mainz, Germany	2022
[54]	Guest Lecture at the NC PhotoChem Conference	2021
[53]	Invited Guest Lecture at the Quantum Technology Center at UMD	2021
[52]	Opening Session Invited talk at SMASH 2021	2021
[51]	Invited talk at the ISMAR-APNMR 2021	2021
[50]	Invited talk at the Global NMR Discussion Meetings	2021
[49]	Ampere Prize Award lecture at the EUROMAR 2020	2020
[48]	Invited talk at the Los Alamos National Lab: Physics/Theory Colloquium	2020
[47]	Invited opening talk of the 1 st ZULF conference	2020
[46]	Invited talk at the inaugural PERM 2020 virtual conference	2020

[45]	Invited talk at North Carolina State University, Department of Physics	2020
[44]	Invited talk at 12th ANZMAG 2019, Bunker Bay, Australia	2019
[43]	Invited talk at the University of Stuttgart, Institute of Smart Sensors, Germany	2019
[43]	Invited talk at the University of Tübingen, Werner Siemens Imaging Center	2019
[43]	Invited talk at the DTU (Danish Technical University), Copenhagen, Denmark	2019
[42]	Invited talk at the ISMRM annual meeting, Montreal, Canada	2019
[41]	Invited talk at the Southern Illinois University, Carbondale, IL	2019
[40]	Invited talk at the University of North Carolina at Greensboro, NC	2019
[39]	Invited talk at J. Gutenberg University of Mainz, Germany	2019
[38]	Invited talk at the University of Southampton, UK	2019
[37]	Invited talk at Wayne State University, Department of Chemistry	2018
[36]	Invited talk at The Fifth International Workshop on Metabolic Imaging at UPenn	2018
[35]	Invited talk at The Britton Chance Symposium on Metabolic Imaging and Spectroscopy	2018
[34]	Invited talk at Hyperpolarised Magnetic Resonance Conference HYP18	2018
[33]	Invited talk at University of Florida, Gainesville, UF	2018
[32]	Invited talk at Colorado State University,	2018
[31]	Invited talk at University of Oregon, Eugene, OR	2017
[30]	Invited talk at University of California, Davis	2017
[29]	Invited talk at NC State University, Raleigh, NC	2017
[28]	Invited Talk at Vanderbilt University, Institute of Imaging Science (VUIIS)	2017
[27]	Talk at the Spin Chemistry Meeting SCM2017	2017
[26]	Invited talk at the Chemistry Department of the University of William & Mary	2017
[25]	Talk at the International Society of Magnetic Resonance (ISMAR)	2017
[24]	Talk at the Experimental NMR Conference (ENC)	2017
[23]	Talk at the World Molecular Imaging Conference	2016
[22]	Invited talk at CCNY Dept. of Physics	2016
[21]	Invited talk at NYU Dept. of Chemistry	2016
[20]	Invited Talk at UC Berkeley Dept. of Chemistry	2016
[19]	Invited Talk at the The Fourth International Workshop on Hyperpolarized Carbon-13 and its Applications in Metabolic Imaging at UPenn	2016
[18]	Wiley Lecture at the European magnetic resonance meeting (EUROMAR)	2015
[16]	Invited talk at the ISMRM Study Group Session: Hyperpolarized Media and Hyperpolarization Methods & Equipment	2015
[15]	Invited Talk at the “Mainz Magnetic Resonance Seminar” of the Max Planck Institute for Polymer Science, Mainz, Germany	2015
[14]	Talk at the annual conference of the Center for Molecular and Biomolecular Imaging:	2015
[13]	Invited Talk at the Wellcome Trust meeting, Advances in Clinical Diagnosis Utilising Parahydrogen:	2014
[12]	Talk at the Duke Imaging Technology Fair	2014
[11]	Talk at the: Relaxation and Hyperpolarisation Symposium: An EU COST Action	2014
[10]	Talk at the annual conference of the Center for Molecular and Biomolecular Imaging:	2013
[9]	Invited talk at RWTH Aachen University as Theodor-von Karman fellow:	2013
[8]	Invited talk at the UNC, Physical Chemistry Seminar Series:	2013
[7]	Talk at the 41 st Southeastern Magnetic Resonance Conference:	2012

- [6] Invited talk at Harvard University, Department of Physics: 2011
- [5] Invited talk at Johns Hopkins University, Department of Radiology: 2011
- [4] Talk in the Pines Lab Seminar Series at UC Berkeley 2010
- [3] Talk at the Graduate Research Conference at UC Berkeley 2009
- [2] Talk at the European Graduate School workshop, Clausthal University of Technology: 2006
- [1] Talk at the 17th Annual Undergraduate Research Conference. Mills College Oakland, CA: 2005
